POWER TECHNOLOGY P.S.A.

COOKIE POLICY

Version 1.0 · Effective from: to be confirmed

DRAFT — document pending legal review

> Draft for review by a lawyer before publication. This English version is provided for information; in case of discrepancies the Polish version prevails.

§ 1. General provisions

1. This Cookie Policy describes how the website fpv.power-technology.pl (hereinafter: the "Website") uses cookies and similar technologies, and how you can give, change or withdraw consent to their use.
2. The entity responsible for the Website and the controller of the data collected by means of cookies is Power Technology P.S.A., with its registered office in Lubicz Górny, ul. Widokowa 8, 87-162 Lubicz Górny, Poland, KRS 0001087392, NIP 8792755036, REGON 527760094, email: biuro@power-technology.pl.
3. Cookies are small text files stored on the User's terminal equipment (computer, phone, tablet) while using the Website. Similar technologies include in particular the browser's local storage and scripts that read information from the device. In this Policy all these technologies are collectively referred to as "cookies".
4. The rules for processing personal data, including Users' rights, are described in the Privacy Policy.

§ 2. Legal basis and rules for using cookies

1. The Website stores information on the User's device or gains access to it in accordance with Article 399 of the Polish Electronic Communications Law of 12 July 2024, in force since 10 November 2024.
2. Cookies that are strictly necessary to provide the service requested by the User (including for logging in, placing Orders, ensuring security and remembering the language choice and the cookie decision) are used without consent, on the basis of Article 399(3) of that Act.
3. Other cookies, in particular analytics cookies, are used only after the User has given consent. Consent must meet the requirements of the GDPR (Article 400 of the Electronic Communications Law): it must be freely given, specific, informed and unambiguous.

4. Personal data collected by means of strictly necessary cookies is processed on the basis of Article 6(1)(b) or (f) GDPR, and data collected by means of analytics cookies on the basis of consent (Article 6(1)(a) GDPR).

§ 3. Cookie banner and consent management

1. On the first visit to the Website, a banner with information about cookies is displayed. The banner contains "Accept" and "Reject" buttons, which are equivalent – they have the same size, shape and visibility, and rejecting cookies requires as many actions as accepting them. The banner also allows the User to go to the detailed settings and choose individual categories of cookies.
2. The checkboxes for categories requiring consent are not pre-ticked. Closing the banner without making a choice means that consent is not given – only strictly necessary cookies are then used.
3. Consent can be changed or withdrawn at any time – as easily as it was given – using the "Cookie settings" link available in the footer of every page of the Website. Withdrawal of consent does not affect the lawfulness of processing carried out before its withdrawal.
4. The User's decision is remembered in a cookie for 12 months. After this period, and in the event of a significant change in the scope of the cookies used, the banner will be displayed again.
5. The Website uses Google Consent Mode v2. By default, all consent signals (analytics_storage, ad_storage, ad_user_data, ad_personalization) are set to "denied". Google Analytics scripts are not loaded until the User consents to analytics cookies – the analytics_storage signal is then set to "granted". The advertising signals remain "denied", because the Website does not use marketing cookies.

§ 4. Categories of cookies

1. **Strictly necessary** – ensure that the Website works correctly: maintaining the session and login, form security, protection against bots, remembering the selected language version and the cookie decision. They do not require consent and cannot be switched off in the banner.
2. **Analytics** – help us understand how Users use the Website (e.g. number of visits, most frequently visited pages), which helps to improve the Website. Used only after consent has been given.
3. **Marketing** – the Website currently does not use marketing or advertising cookies. If they are introduced, they will be used only after separate consent has been obtained, and the Cookie Policy will be updated accordingly.

§ 5. Strictly necessary cookies

Name	Provider	Purpose	Retention period

`fpv-session`	Power Technology P.S.A.	Session cookie – maintaining the User's session, login and the state of the Order form	2 hours from the last activity
`XSRF-TOKEN`	Power Technology P.S.A.	Security – protecting forms against CSRF (cross-site request forgery) attacks	2 hours from the last activity
`locale`	Power Technology P.S.A.	Remembering the language version of the Website selected by the User	12 months
`cookie_consent`	Power Technology P.S.A.	Remembering the User's cookie decision (selected categories, date and version of consent)	12 months
`remember_web_*`	Power Technology P.S.A.	Keeping the User logged in on a given device – only when the User ticks the "Remember me" option	up to 400 days or until logout

[TO BE COMPLETED: verify the cookie names and retention periods against the Website's production configuration.]

The Cloudflare Turnstile mechanism, which protects forms against bots, runs in a frame embedded from a Cloudflare domain and may process on the User's device technical information necessary to distinguish a human from a bot. This technology is strictly necessary to ensure the security of the service requested by the User.

§ 6. Analytics cookies

Name	Provider	Purpose	Retention period
`_ga`	Google (Google Analytics 4)	Distinguishing Users for statistical purposes	2 years
`_ga_<ID>`	Google (Google Analytics 4)	Maintaining session state for statistical purposes	2 years

1. Analytics cookies are stored only after consent has been given. Event data in Google Analytics is kept for no longer than 14 months.
2. According to Google, Google Analytics 4 does not log or store the IP addresses of Users in the European Union. The use of Google Analytics may involve the transfer of data to Google LLC in the

United States – under the rules described in § 6 of the Privacy Policy.

§ 7. External services

1. When logging in with a Google account, the User is redirected to a Google page, and when paying – to a PayU page. Google or PayU cookies may be used on those pages, under the rules set out in the privacy policies of those entities.
2. The Website is not responsible for cookies used by external websites to which links on the Website lead.

§ 8. Browser settings

1. Regardless of the banner settings, the User can delete cookies or block them from being stored in their web browser settings. Instructions are available in the help section of each browser.
2. Blocking strictly necessary cookies may make it impossible to log in, place an Order or use the Customer Panel.

§ 9. Final provisions

1. For matters relating to cookies, you can contact Power Technology P.S.A. at biuro@power-technology.pl.
2. The Cookie Policy may be updated, in particular in the event of a change in the law or in the scope of the cookies used. The current version is available on the Website.
3. The Cookie Policy applies from [EFFECTIVE DATE].
